

Fish Alaska Gear Guide '08-'09

Featuring The NRS Access Duffel

NRS Access Duffel

NRS Access Duffel - Dry Bag

\$55 www.nrsweb.com

This duffel-style dry bag has a clear top, which makes it easier to find what you are looking for. At 23x12x17, this bag is large enough to fit everything you'd need for the day. Efficient packers should be able to fit a weekend's needs. There are 4 roll-down clips that enable you to get a waterproof seal.

BLUE FOX BLEEDING CLASSIC VIBRAX \$2.49-\$3.99
www.fishalaska.com

This indispensable spinner has all the elements to make it eminently successful in Alaska, plus the addition of a "bleeding" color element designed to mimic a wounded baitfish. It is available in 5 body colors.

MOUNTAIN HARDWARE WOMEN'S EXTEND FEATHERWEIGHT TIGHT \$45
www.mountainhardware.com

Mountain Hardware does a really nice job of making one-size products that work well in Alaska. These base layer tights are versatile enough to work fine on their own under waders or as a base under heavier layer weights for the various chillier times in Alaska. If you're also into the great outdoors with snowmachining, skiing or virtually any other sport, these are a great all-around option to have in the closet.
